TECHNICAL SKILLS

- Python
- Machine learning
- TensorFlow
- Advanced SQL
- MySQL, SQL Server
- Excel
- Power BI
- Data Visualization
- R
- C++
- MATLAB
- Scikit-learn
- Matplotlib
- Seaborn

MATHEMATICAL SKILLS

- Linear Algebra & Matrix Computations
- Probability & Statistics
- Numerical Methods
- Optimization Techniques
- Discrete Mathematics

PROFILE

A dedicated M.Sc. student in Mathematics and Scientific Computing at NIT Warangal has strong expertise in Python, SQL, Excel, R and Machine Learning. Experienced in predictive modelling, data visualisation, and database management through multiple projects. Possesses strong analytical and problem-solving skills, seeking to leverage technical knowledge to tackle real-world data challenges.

EDUCATIONAL CREDENTIALS

- **National Institute Of Technology, Warangal** 2024 - 2026
 - M.Sc., Mathematics and Scientific Computing
- **Gautam Buddha Pvt ITI, Hazaribagh** 2022 - 2023
 - National Council for Vocational Training Incomplete
- **St. Columba's College, Hazaribagh** 2019 - 2022
 - B.Sc. in Mathematics
- **Patel Inter College Masipiri, Hazaribagh** 2017 - 2019
 - Higher Secondary Examination, JAC Ranchi
- **Zila School, Giridih** 2017
 - Matriculation, JAC, Ranchi

PERSONAL PROJECTS

- **Big Mart Sales Prediction (ML project)**
 - Performed data cleaning, visualization, and feature engineering (One-Hot Encoding, Outlet_Age) to improve model accuracy.
 - Implemented and compared Linear Regression, Random Forest, and XGBoost, tuning the final model with Grid Search CV to minimize errors.
 - Identified key sales drivers (Item_MRP, Outlet_Identifier) to provide actionable insights for pricing and stock planning.
 - **Tools & Technologies:** Python, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, XGBoost, Jupyter Notebook.
- **Walmart Sales Analysis**
 - Analysed a large retail sales dataset to uncover revenue trends, seasonal patterns, and customer behavior.
 - Built a data analysis pipeline in MySQL, performing data cleaning and executing advanced SQL queries with Joins and aggregate functions to assess store and department performance.
 - Conducted trend analysis in Python using Pandas, identifying the impact of holiday promotions and seasonal patterns on weekly revenue.
 - Developed visualizations in Matplotlib to present complex findings clearly, providing actionable insights for inventory management and marketing strategies.

Library Management System

- Engineered a relational database system in MySQL to manage books, members, and loan transactions efficiently.
 - Designed and deployed a normalized schema and implemented CRUD operations, including “Edit Book Details”, ensuring data integrity.
 - Developed advanced SQL queries, Joins, CTEs, and Stored Procedures to automate fine calculation, revenue tracking, and analytical reporting.
 - Integrated Python scripts for automated data processing, report generation, and visualization of library performance metrics.
- Technologies:** MySQL, Python, SQL Queries, Stored Procedures, Data Visualization.

Building NITW Placement Portal (ongoing)

• Under DR. Y sreenivasa Rao , NITW

- Working on the design and development of a real-time College Placement Portal.
- Designed and maintained normalized MySQL database schemas to efficiently store and manage student, recruiter, and placement data.
- Developed secure, role-based web interfaces enabling students and recruiters to access relevant information while ensuring data privacy and integrity.
- Integrated UI components with backend databases to enable seamless data flow, eligibility checks, and application tracking.
- Contributed to system architecture planning, including user roles (Student, Recruiter, Admin), application workflows, and placement statistics modules.

POSITIONS OF RESPONSIBILITY

- Member Mathematics Society, NITW (2024)
- Member of National Service Scheme (2024-2026)
- Member of National Cadet Corps (2019-2021)
- Child Journalist **UNICEF** (2015-2017)

ACHIEVEMENTS

- IIT-JAM(MA) Qualifier (**AIR Rank-535**)
- Child Journalist **UNICEF**, Bal Mitra Akhbar

CERTIFICATE

- Microsoft SQL Server Professional Certificate, [Coursera](#)
- Machine Learning Introduction for Everyone, [IBM](#)
- SQL to Work: The TechMart Challenge, [Coursera](#)
- Excel Coursera
